## CORPORATE

### Strategy and Business Model

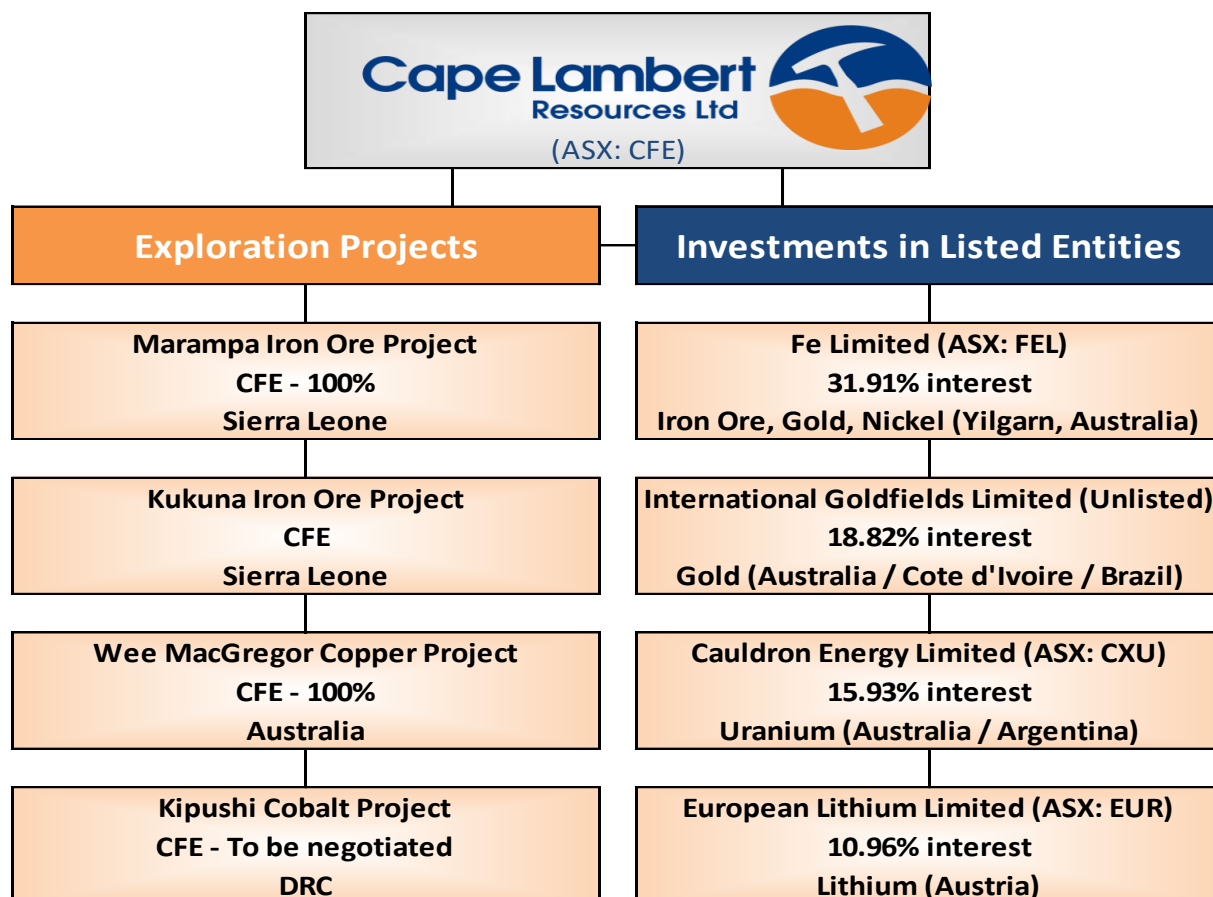

Cape Lambert Resources Limited (**ASX: CFE**) (**Cape Lambert** or the **Company**) is an Australian domiciled mineral development company. Cape Lambert has interests in several exploration and mining companies, providing exposure to iron ore, copper, gold, uranium, cobalt, lithium and lead-silver-zinc assets in Australia, Europe, Africa and South America (refer Figure 1).

Cape Lambert's strategy is to acquire and invest in undervalued and/or distressed mineral assets and companies (**Projects**) and:

- improve the value of these Projects, through a hands on approach to management, exploration, evaluation and development; and
- retain long-term exposure to these Projects through a production royalty and/or equity interest.

Cape Lambert aims to deliver Shareholder value by adding value to these undeveloped Projects. If Projects are converted into cash, the Company intends to follow a policy of distributing surplus cash to Shareholders.

**Figure 1: Group Structure June 2019**

### Cash Balance

As at 30 June 2019, the Company had approximately A\$209k.

### Trading Suspension

On 8 January 2019, the Company's securities were suspended from official quotation pending an announcement on the Project, and in particular the security of tenure over the Kipushi Cobalt-Copper Tailings Project (**Project**). On 2 May 2019 the Company's securities were reinstated to trading following the release of an announcement in respect to the Project.

### Financing Facility

On 17 December 2018, the Company announced that it has secured a A\$7.5m finance facility with MEF I, L.P. (**Magna**) with an initial amount of A\$750k drawn down on 19 December 2018. During the quarter, Magna converted 50,000 notes (6,526,176 shares) on 13 May 2019. As at 30 June 2019, Magna had 333,817 convertible notes remaining.

On 29 May 2019, the Company announced that it had executed a non-binding terms sheet for an A\$15m finance facility with Winance Investment LLC (**Winance**). Subsequent to quarter end on 31 July 2019, the Company announced it had executed binding documentation with Winance in respect to the finance facility. The finance facility is by way of the issue of convertible securities in the Company. An initial amount of A\$1.2m (before expenses) is available for immediate drawdown and further drawdowns of A\$500,000 each are available upon full conversion of the notes from the previous drawdown, subject to cooling off periods.

### Lapsed Unlisted Options

On 30 June 2019 a total of 10m unlisted options exercisable at \$0.075 each expired.

## PROJECTS

### Marampa (100% interest)

Marampa is an iron ore project at the development stage, and is located 90 km northeast of Freetown, Sierra Leone, West Africa (**Marampa** or **Marampa Project**) (refer Figure 2). Marampa comprises one granted mining licence (ML05/2014) comprising 79.40km<sup>2</sup> and one granted exploration licence EL46A/2011 – 159.78 km<sup>2</sup> held by Marampa Iron Ore (SL) Limited, which is indirectly, a wholly owned subsidiary of Cape Lambert.

There is nothing to report for the quarter.

### Dempsey Resources (100% interest)

Dempsey Resources holds the Kukuna Iron Ore Project located in Sierra Leone (**Kukuna** or **Kukuna Project**).

The Project is located 120 km northeast of Freetown in the northwest of Sierra Leone and consists of one exploration licence (EL22/2012) covering 68km<sup>2</sup> (refer Figure 2). The licence is located 70km due north of the Marampa Project and the Pepel Infrastructure and

comprises rocks that correlate with the Marampa Group stratigraphy known to host specular hematite mineralisation.

The Kukuna Project remains under care and maintenance.

### **Kipushi Copper-Cobalt Projects (JV with Paragon Mining SARL)**

The Kipushi Cobalt Copper Tailings Project consists of a tailings dam located on PE 12347 and the Kipushi Processing Plant located adjacent mining licence PE481 (**Kipushi Project**), refer Figure 2. The project is located approximately 25km from Lubumbashi, the second largest city in the Democratic Republic of Congo (**DRC**).

The Kipushi Project is held by State-owned mining company La Generale des Carrieres et des Mines (**Gecamines**), which has granted the rights to exploit the project to La Patience SPRL (**Patience**). In turn:

1. Patience had granted Paragon Mining SARL (**Paragon**) an interest in the project in consideration for Paragon sole funding development; and
2. Paragon had entered an agreement with the Company under which the Company would sole fund development in return for a net 35% interest in the Kipushi Project.

During the quarter the Company announced that Patience and Paragon had entered a settlement agreement (**Settlement Agreement**) to resolve a dispute over the agreement under which Paragon was granted its rights to the Kipushi Project. The Settlement Agreement was subject to certain warranties; which were backed by the Company and if not met entitled Patience to terminate the Settlement Agreement (in which case Cape Lambert would lose its interest in the Kipushi Project). The Company is yet to comply with the warranties and to date they have been met by Paragon. As a result Paragon can now renegotiate the terms of its joint venture agreement with the Company.

As announced on 12 July 2019 two African banks undertook a site visit, and the Company is in negotiations with a Chinese based bank with a view to achieving a 6 month rolling \$US40m letter of credit to fund the Project. If funding is secured the Company can negotiate with Paragon the terms of an updated JV.

During the quarter, the Company completed and released a maiden JORC compliant resource for the copper cobalt tailings of 2.3Mt @ 0.33% co and 1.0% cu as well as zinc cobalt tailings of 2.1Mt @0.14% co and 1.2% zn for a total of 4.4Mt of treatable tailings (refer ASX announcement 2 May 2019).

Approximately only half of the tailings deposit had been drilled and an additional exploration target of 1.8 to 2.0Mt containing between 0.3% - 0.35% co, 1.0 – 1.1% cu and 0.1 – 0.15% zn has been determined (refer to ASX announcement date 2<sup>nd</sup> May 2019 for all relevant details). The Company is not aware of any new information or data that materially affects the information included in that announcement.

### **Mining International Pty Ltd (100% Interest)**

Mining International Pty Ltd (**Mining International**), is a wholly owned subsidiary of Cape Lambert. The Company holds tenure to 4 mining leases (which were excluded from the sale of the Leichhardt Copper Project) at the Wee MacGregor Project located 40 km southeast of Mt Isa in Queensland (refer Figure 4).

The tenements are located within in the Eastern Fold Belt of the Mt Isa inlier. The tenements are located in the Mary Kathleen Zone/Wonga Subprovince. This area is prospective for a variety of deposit types, most notably structurally controlled epigenetic copper and gold deposits.

Cohiba Minerals Limited (**Cohiba**) has a Farm-in agreement with the Company for mining licences ML 2504, ML 2773 and ML 90098, while Firebird Minerals Pty Ltd (**Firebird**) has a Farm-in agreement for mining licence ML 2771.

No activities were reported for the quarter.

## Figure 2: Cape Lambert West African Iron Ore Interests

Figure 3: Location of the Kipushi Project

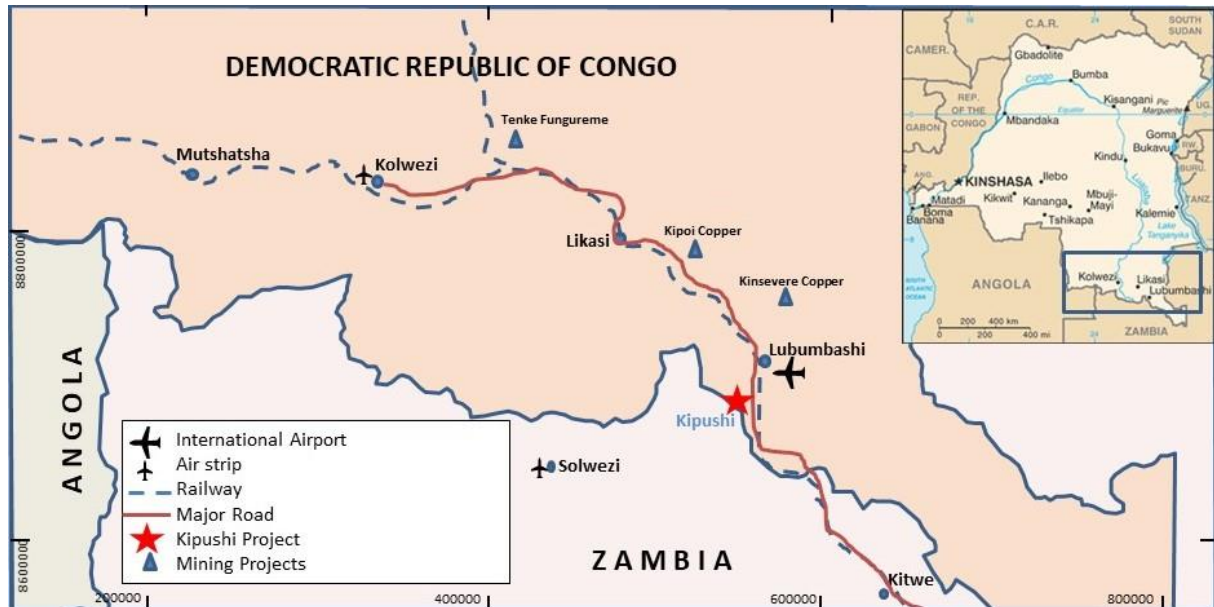

Figure 4: Wee MacGregor Project Location

## Appendix 1: Tenement Status

The mining tenements held at the end of each quarter, acquired and disposed of during the quarter and their location:

Tenement reference	Project & Location	Acquired interest during the quarter	Disposed interest during the quarter	Interest at the end of quarter
Marampa Project - EL 46A/2011	Lunsar - Sierra Leone	-	-	100% <sup>4</sup>
Marampa Project – ML 05/2014	Lunsar - Sierra Leone	-	-	100% <sup>4</sup>
Kukuna Project - EL 22/2012	Kukuna – Sierra Leone	-	-	100%
ML 90098 <sup>1</sup>	Wee MacGregor - Queensland	-	-	100%
ML 2504 <sup>1</sup>	Wee MacGregor - Queensland	-	-	100%
ML 2771 <sup>2</sup>	Wee MacGregor - Queensland	-	-	100%
ML 2773 <sup>1</sup>	Wee MacGregor - Queensland	-	-	100%
PER 12347 <sup>3</sup>	Kipushi – DRC	-	-	Refer above

<sup>1</sup> Subject to the Cohiba (Cobalt X) Farm-in agreement, refer to ASX March 2017 Quarterly Report for details.

<sup>2</sup> Subject to the Firebird Farm-in agreement, refer to ASX March 2016 Quarterly Report for details.

<sup>3</sup> Refer to commentary above

<sup>4</sup> During the September 2018 quarter, the Company received a letter from the Sierra Leone Ministry of Mines (MoM) informing Marampa Iron Ore (SL) Limited (Marampa SL) of the cancellation of the Marampa mining license ML05/2014 due to non payment of fees. In September 2014, Marampa SL submitted to the MoM an application letter entitled "Force Majeure to all Cape Lambert Operations in Sierra Leone" which was acknowledged by the MoM. The Company understood that the agreement with the MoM was that force majeure events were acknowledged and authorised and as such no fees would accrue or be payable until a processing facility was operating and Marampa SL is producing iron ore from Marampa. The Company understands that the notice of cancellation of license letter has incorrectly been issued by the new Sierra Leone government who are not aware of the agreement. In order to protect it's position, Marampa SL has engaged Sierra Leone based lawyers BMT Law Chambers who has commenced legal action in the High Court of Sierra Leone against the cancellation of the licence.

There were no mining tenements with beneficial interest earned/lost in farm-in/farm-out agreements at the end of the quarter.
